And More

As your well-being program and benefits hub for all your employees, WebMD ONE covers all dimensions of well-being including our digital solutions, live support and the rewards and incentives platform.

Why WebMD ONE for your employees worldwide?

Delivers more than just wellness challenges.

Our holistic well-being program, content and tools delivers high levels of engagement and educates all employees on their health and well-being.

Provides your organization localized program recommendations.

Connecting individuals with the best solutions to inspire well-being.

Brings your employees those programs that are culturally relevant.

Each country's employee experience is personal.

User experience is easy to navigate, personalized and comprehensive.

Providing a well-being program for all individuals in the company regardless of location, language and culture.

The platform is highly configurable.

Leveraging the most powerful segmentation capabilities in the market today. This includes nuances your organization may have within each country and benefits program.

WebMD ONE has been built to enable compliance with GDPR.

This is widely considered to be the 'gold' standard with regard to data privacy laws.

Empowering well-being in everyone—includes educating, motivating, and engaging all employees worldwide. This is your goal—which means it's our goal.
