

eXo Platform 6.2

Your Digital Workplace Solution

eXo Platform is a secure, independent, employee-centred digital workplace.

Based on a complete and integrated functional set, it simplifies internal communications, facilitates remote working, fosters collaboration, and manages knowledge.

Benefits of a digital workplace

Build your corporate culture

Facilitate collaboration

Improve remote working

Manage knowledge effectively

Engage your workforce

Enhance productivity

Why eXo?

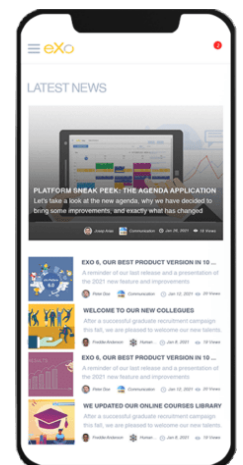

Employee-centred: it is easy and enjoyable to use, being based on modern user experience principles and design.

Highly secure: at all levels - application, infrastructure, software development, and systems.

Independent: an independent solution giving you the control that you need and ensuring forward interoperability.
