

Closing the Time Gap on Preventive Care

Flexible Health Screening Options

1 in 4

Americans have **delayed** health care due to inflation.

Your employee's health can't wait.

Through our screenings we can help your employees understand their health risk and take action now to avoid problems later. We'll meet your employees where they are – whether in the office or working from home. We offer several flexible options for health screenings to help your employees get on the right track.

Flexible Options for Added Convenience

Along with a comprehensive lifestyle assessment, we can provide a clear picture of an individual's health status and risks. Our flexible screening options include:

At your workplace

We'll come to your workplace, making it convenient for employees to participate.

At a participating lab

With weekend hours available, employees can go to a participating LabCorp or other contracted facilities to have their blood drawn.

With a physician

A convenient alternative that lets you to screen at your doctor's office

It's important to keep the physician involved. That's why we make it easy for members to send their screening results. Working together, we can all help employees achieve a healthier lifestyle.

Don't delay. Contact your CHC representative or call 866.373.4242 to learn more about our flexible screening options.
