

Health and benefits challenges?

Accolade has the right solution for HR benefit leaders and teams

Accolade Personalized Healthcare

With Accolade, your people and their families get the care they deserve. We provide easy access to quality primary, mental health support and expert medical opinions — all delivered by a team of clinical experts.

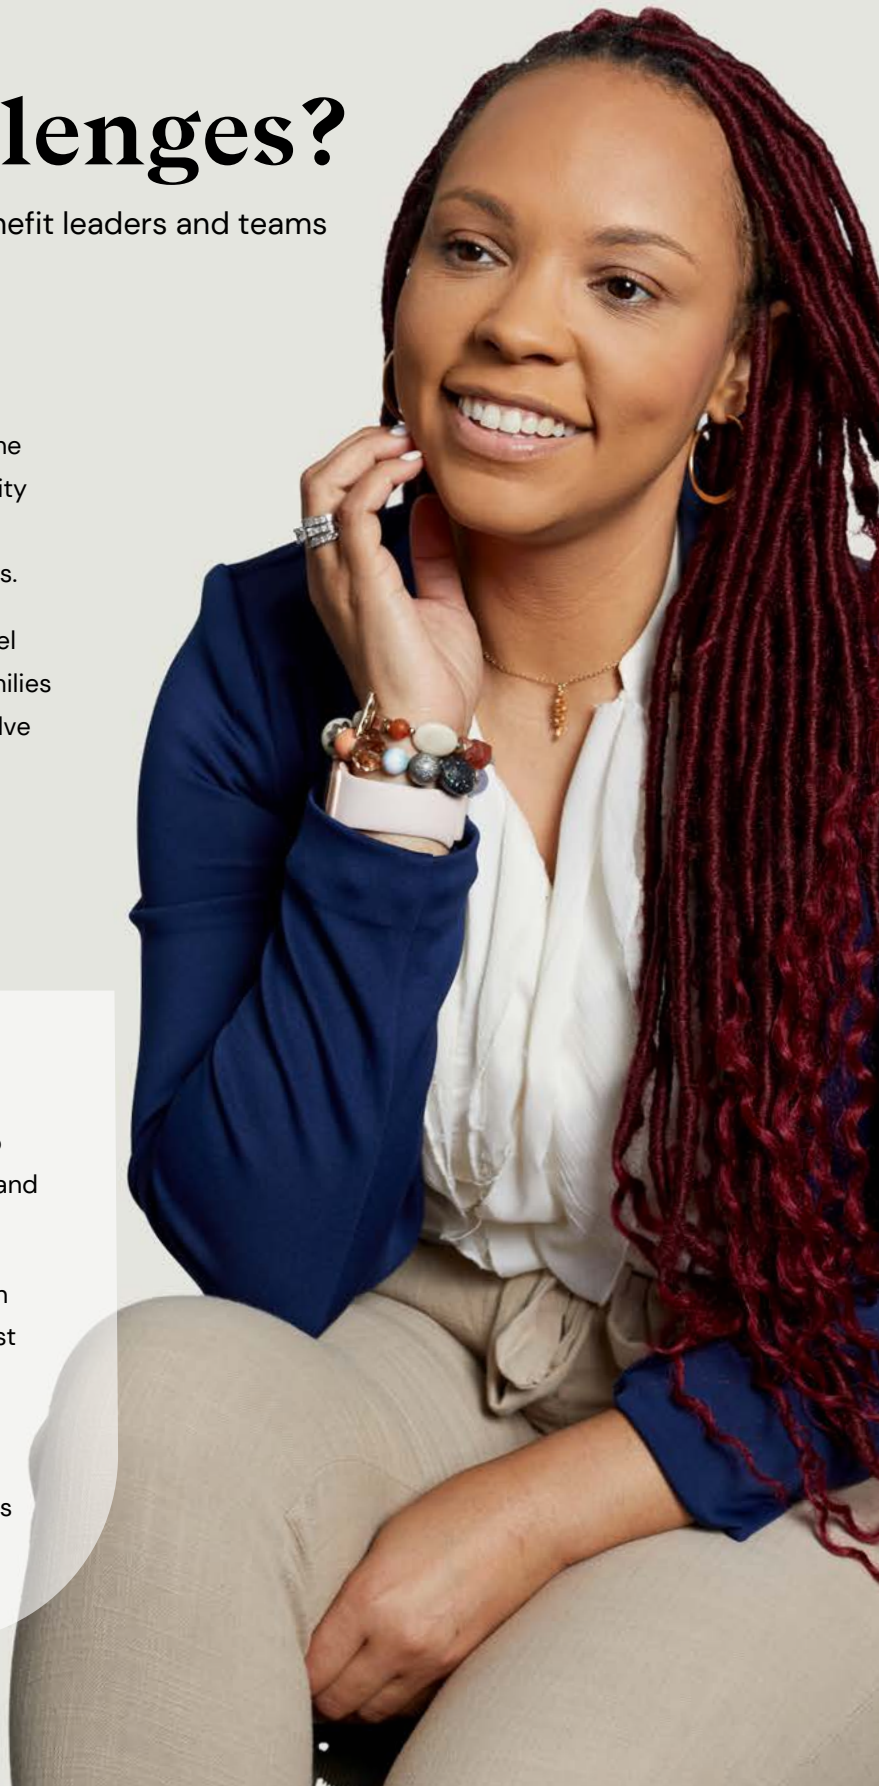

Our range of solutions offer every employer the level of support they need. We help people and their families navigate their benefits, get to the right doctor, resolve billing issues, and manage chronic conditions.

The result? Happier, healthier employees and lower healthcare costs for your organization.

A solution for every need

Accolade offers a complete portfolio of solutions to provide employers of all sizes with a level of health and benefits support they won't find anywhere else.

Our portfolio features flexible, high-touch, high-tech solutions designed to help each person get the most value from their employer benefits. By engaging Accolade to change the healthcare experience for people and their families, you can dramatically improve employee satisfaction and health outcomes while reducing healthcare costs at the same time.
