

eHealthScreenings
A Premise Health® company

SCREENINGS MADE SIMPLE

A TECHNOLOGY-DRIVEN BIOMETRIC SCREENING COMPANY

We help individuals understand their health by providing valuable insights into current and potential medical issues, risk of preventable chronic conditions, and strategies to improve overall health and wellbeing.

Our mission is not only to identify health conditions that might otherwise go unnoticed, but to also help companies and wellness partners enhance their benefits package while saving money and improving health outcomes.

Powering HEALTHIER LIVES and EFFECTIVE WELLNESS PROGRAMS

Our unique combination of tailored solutions, innovative technology and national network of healthcare professionals are what enable us to do what we do best – simplify the health screening process.

- Experience-centric approach
- Quality-focused culture
- Customized event platform
- Scalable screening solutions

BIOMETRIC SCREENINGS

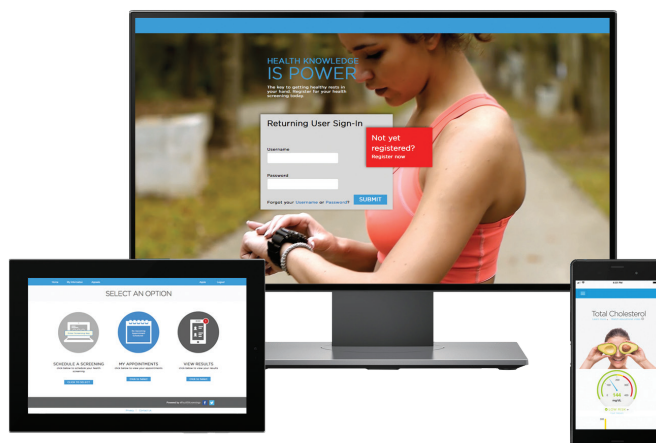

To maximize participant engagement, we offer a variety of convenient screening programs and testing options to fit your specific wellness needs delivered by a team of highly trained technicians.

TECHNOLOGY DESIGNED *with* CONVENIENCE IN MIND

ONLINE PLATFORM

Our secure, internally developed online dashboard provides an end-to-end reporting solution for both participants and clients in real-time on web or mobile. Participants can even share screening results electronically with their primary care provider for continuity of care.

CLIENTS CAN:

- ✓ Track screening event participation
- ✓ View condition-specific trend reports
- ✓ Assess population health data
- ✓ View event scheduling progress
- ✓ Manage multiple screening events

PARTICIPANTS CAN:

- ✓ Gain insight into their overall health
- ✓ Learn ways to make improvements
- ✓ Book an appointment online or by phone
- ✓ Review results and risk scores
- ✓ Complete pre-screening forms
- ✓ View educational videos
- ✓ Access historical health records
- ✓ Send test results to their physician

EVENT MARKETING

All screening packages include participant marketing materials that are pre-populated or customizable. This content is comprised of emails, flyers, and videos that promote the event.

Our bilingual capabilities include toll free, Spanish-speaking participant support, scheduling, and reports.

EVENT SUPPORT TEAM

The screening event team will lead you through the implementation process from start to finish, acting as a single point of contact and tailoring each event to the unique needs of your population.

- ✓ Bilingual English and Spanish capabilities
- ✓ Designated project manager

TABLET-BASED TECHNOLOGY

Using our HIPAA compliant, proprietary encrypted biometric information transfer system (e.b.i.t.), we're able to provide quantifiable data quickly and efficiently, in real-time.

VENDOR INTEGRATION

Whether you have 20 employees or you manage millions of lives, our robust software system works with your existing benefits strategy to provide seamless information sharing.

- ✓ Single sign on connection
- ✓ API
- ✓ Secure third-party data transfer
- ✓ Automated data export
- ✓ Custom programs and reports

OUTCOMES MANAGEMENT

From initial design to ongoing oversight, we can help you create a customized program that is easy to administer and track so you can stay ahead of preventable conditions and manage ever-rising healthcare costs.

- ✓ Medical exclusion processing
- ✓ Reasonable alternative program
- ✓ Appeals administration
