TRUSTED BY INNOVATIVE COMPANIES ACROSS THE WORLD

Hire the best, every time, anywhere

4.8

Customer Satisfaction

Testlify helps you identify the best talent from anywhere in the world, with a seamless experience that candidates and hiring teams love every step of the way.

Identify the best talent 3x faster

With Testlify, optimize your initial screening process by upwards of 75%. Free up precious time for both hiring managers and the talent acquisition team. Our research shows that organizations have noticed an 82% reduction in time to hire.

Designed for high completion rate

Our tests are low-stress, adaptive, and take just 30 mins to complete. This is why over 80% of applicants complete the test, which is 2-3x better than typical assessments. Testlify is the most candidate friendly assessment tool

Build diverse team

Say goodbye to unconscious bias. Give all applicants an equal, unbiased opportunity to showcase their talent. Our assessment removes unconscious bias from your screening process and finds hidden gems from underrepresented backgrounds.

Test on-the-job skills

Test candidates for on-the-job skills over trick questions and find the most qualified candidates. Try our library of questions that are designed to test for fit rather than memorization of algorithms. Create a role-specific assessment to test your applicants.

How Testlify works?

Testlify's unique AI-powered assessment technology is a proven solution against high employee turnover rates. Get rid of the manual tasks in your hiring process and automate laborious processes from 'Apply' to 'Hire'. A fun, engaging, and quick assessment process ensures minimal drop-off rates throughout your recruitment process. Experience unprecedented control of your hiring funnel through deep business intelligence.

Create high-quality assessments

- Pick the perfect assessment name
- Select the tests that are most suited for the role you're hiring
- Get personal with your own custom questions

Invite candidates your way

- Send your applicant a personalized invite
- Bulk upload all your applicants
- Integrate your existing applicant tracking system (ATS)

Analyze and decide on the best candidates

- Real-time assessment results
- Compare your candidates instantly
- Go in-depth with a candidate review

No more guessing

One of the biggest challenges of recruiting technical staff is establishing if they have the right level of skills for the job.

With our extensive testing framework, we take the guesswork out of recruitment.

We help you accurately evaluate the level of skill of any candidate.

TESTIMONIALS

”

Saved a tremendous amount of time for our hiring team and managerial team.

Before we were wasting a lot of time (and money) by talking with all candidates.

Jeff Pratt
CTO, SimpleMart

Native ATS Integrations

We integrate with popular recruiting tools such as Greenhouse, Lever, and GoodTime, so you can spend less time switching tabs and more time meeting candidates.

Scale your team fast

As your company scales, so does your need for talented team members.

Our user-friendly interface makes managing your recruitment process simple, effective, and fast!

Automate tasks quickly, manage candidate information in a central dashboard and share with your recruitment team effortlessly.

Boost your brand

The interview process can be stressful for even the most confident candidates.

With Testlify your organization can offer applicants a pleasant experience while elevating your perception as a candidate-friendly organization.

From custom-branded invitations to our best-in-class technology, we're obsessed with candidate experience.

It's really a win-win!

Affordable and Transparent

Many assessment platforms have expensive complex pricing structures. That's why our pricing is simple and affordable.

You only pay when a test is completed. No hidden cost, no subscription models.

\$5 per test, it's that simple!

Frequently Asked Questions (FAQs)

Want to know more about Testlify? Here are answers to the most commonly asked questions about our company.

What is Testlify?

Testlify is the talent assessment platform helping companies hire the best talent quickly, easily, accurately, and, yes, affordably. Recruiting at scale is complex, time-consuming, and risky, and we take the stress out of finding the best candidates with deep analysis that's accurate, automated, and unbiased.
