

Introducing the first pay-for-performance network in mental healthcare.

Candela measures our providers' performance in real-time, ensuring the highest quality network and care for your team.

Candela measures quality using both **clinical** and **operational** metrics

Depression and anxiety improvement

Depression and anxiety remission

Appointments kept and completed

Average hours available per week

Patient satisfaction

... and more!

Provider name	Provider role	Number of patients	Quality score	Remission metric	Depression metric	Average patient satisfaction
Gina Wilkins	Therapist	26	10	1	1	9.4
Phillip Racies	Therapist	13	9	1	1	9.4
Gerardo Sorkin	Therapist	20	9	0	1	9.4
Jeffrey Friedman	Therapist	9	9	1	1	9.4
Jennifer McKinney	Therapist	9	8	0	1	9.4
Keri Nider	Therapist	10	8	1	1	9.4
April Tinajero	Therapist	13	8	0	1	9.4
Shabnam Jesgar	Therapist	34	8	0	1	9.4

A results-driven network, powered by data and insights:

Better performance

We incentivize quality care by rewarding our top providers with a cash bonus.

Maximum affordability

Improving care quality decreases time-to-remission, drastically reducing costs.

Consistent improvement

We coach providers to review performance and provide strategies for improvement.

The best provider network for your team:

1.1

avg time to appointment

10+

specialty areas

3x

diversity of the standard network

9.4
