

# Benefits to boost every employee, budget, and culture.

We're Level, a modern benefits platform built to supercharge your company culture and bring your values to life. Our benefits, including Lifestyle Spending Accounts (LSAs), Mental Health, and Education, help you meet your people where they are — at work and beyond.

- ✓ **Less friction, more delight**  
Empower your team to spend their benefits as easily as they buy a cup of coffee — with just a tap of their Level Card.
- ✓ **Less confusion, more transparency**  
Employees can use the Level App to track transactions, view coverage, and upload receipts when needed.
- ✓ **More access, greater equity**  
Deliver on DEIB goals by eliminating up-front payments, so your people don't have to wait for reimbursement.

Meet the world where it's going with LSAs.

**Unlock access to what your team values most.**
