THE EH DIFFERENCE

Unparalleled Service

Your personal EH Account Manager will be your guide to a hands-free, seamless wellness program. We don't just provide the 'tool kit.' Instead we handle all preparation and delivery of your program's communications, reports and ongoing support.

Total Population Management

Many wellness programs target only the high-risk. The EH programs focus on creating healthy habits for everyone, not just the high-risk. Studies have shown it is much easier to prevent the apparently low-risk from becoming high-risk than to move someone from high-risk to low-risk.

Fees at Risk

EngagementHealth provides program funding options that put EH fees 100% at risk starting in year one.

with EH Engage

EngagementHealth has been an outstanding partner. Their wellness program is comprehensive, participation-based, and has something for everyone. Our employee participation has been over 80% for two years running. I have relied on their expertise and support to help design and implement our company-wide program. I could not have done it without them.”
