

Wonderschool for Work: Employer Offerings

Child Care Benefits

Problems Solved

Talent Acquisition:

85% of employers report an **improvement in recruitment** with childcare programs.

Employee Retention:

Employers report a **60% reduction** in turnover with childcare programs.

Productivity:

Due to inadequate childcare, employers suffer **\$37B productivity losses**. Companies providing childcare see a **30% reduction** in absences.

Culture:

Community-based care programs allow employers the flexibility to support their entire workforce, whether in office, hybrid, or fully remote. Investing in community-based child care is an investment in women and BIPOC business owners.

www.wonderschool.com

Before the pandemic, 70% of employees **commuted to offices.**

In the future we expect **85%** of employees **work remotely.**

High quality home-based care is an innovative and cost-effective option for us.

- Fortune 200 company with \$20B annual revenue & 50,000 employees

New Program & Custom Network Creation

**No Wonderschool
locations in a certain area
for your employees?
No problem!**

In order to build child care capacity where supply is needed, Wonderschool can create new programs right where you need them most. Let us create a network of Wonderschool programs specifically serving your employees.

Wonderschool Concierge Search & Support

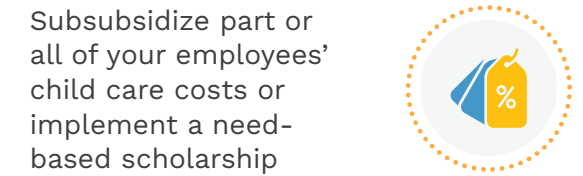

Your employees will have access to personalized 1:1 concierge support to take control of their child care search. Support for your employees is an email or phone call away. Parents simply reach out and tell us their care needs, we will find the best child care options for them!

Tuition Support

Create a customized tuition support plan for your employees

Provide your employees with a pool of funds to use toward enrollment

Subsidize part or all of your employees' child care costs or implement a need-based scholarship

Pay to waive the cost of the registration fee
