

SMART HUB

powered by **Balance2life**

The SmartHub is a highly customisable wellbeing experience platform that connects your people, existing benefits and data with the feature set you need to deliver mobile journeys of wellbeing, inclusion and belonging, right in the flow of work.

Wellbeing

Inclusion

Psychological safety

Meeting people in their MomentsThatMatter

Intelligent Listening

Balance Breaks, delivered as an in the moment recharge takes a quick pulse that triggers:

- science backed micro-actions to promote healthy behaviours and build resilient mindsets,
- timely nudges to transform managers into leaders and
- intuitive connections to internal benefits, programs and resources.

Transformational Journeys

Journeys can be created for virtually any challenge people are facing that is impacting their wellbeing. These smart workflows connect to all of the modules within the SmartHub, as well as internal initiatives and benefits. Journeys meet individuals with step-by-step, timely guidance across the moments and experiences that matter to them.

Custom Insights & Reporting

Real time analytics provide multiple touch-points and deep insights to help uncover key moments that impact employee wellbeing and performance. With targeted communication functionality, admins are empowered with self-service capabilities that automate, personalise and layer communications.

Custom branding & robust scalability

QR Flourishing Activators to engage front line employees
