

MARQUEE HEALTH

ORGANIZATIONAL PROFILE

Marquee Health provides clients with an outcomes-driven suite of health and wellness services that support the improvement and maintenance of a healthy lifestyle.

A TOTAL WELL-BEING APPROACH

Marquee Health recognizes the benefits of a holistic approach to optimal health. Marquee provides program participants with the tools, resources, motivation and one-on-one instruction necessary to achieve the perfect balance of physical, financial and mental well-being.

PLAN DESIGN MODEL: CORE

Marquee's Core model is a structured, turnkey wellness solution for clients of any size. All programs include health coaching, access to Marquee Health's wellness portal, team or individual competitions and culturally-relevant health promotion.

PLAN DESIGN MODEL: ENHANCED

The Enhanced plan design option is an activity-based model that assesses and engages participants. This model includes the features of the Core model, plus biometric screenings, risk evaluation, targeted outreach and incentive administration.

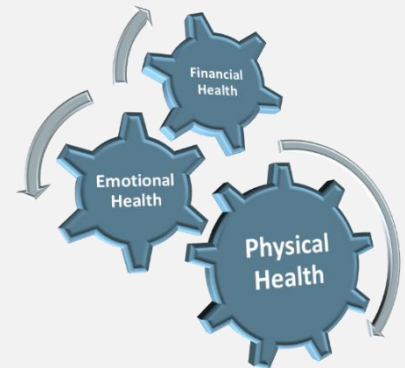

PLAN DESIGN MODEL: PREMIER

Marquee Health's Premier model, which includes the features of the Core and Enhanced models, is an outcomes-based program that holds participants accountable for their health. This level of service is based on HIPAA-compliant, clinical metrics and health goals to engage all members to strive for their optimal level of health and well-being.

PROVEN RESULTS

Marquee Health's Premier model delivers meaningful results for employers and individuals:

- 6.1% Average Annual Medical Cost Trend Reduction
- 7.7% Reduction in Per Member Per Month (PMPM) Cost
- Participants Returned to Work 11 Days Sooner from a Workers Compensation Incident; 17 Days Sooner from STD

Wellness is a multidimensional concept that requires attention to more than just physical health concerns. Marquee Health's unique solution addresses the needs of participants by providing coordinated consultation for physical, financial and emotional health.
