

WHAT IS A VEHICLE SERVICE CONTRACT?

A vehicle service contract (VSC) is an added protection that you can purchase for your vehicle that covers it beyond the manufacturer warranty (for a specified period of time or amount of miles). Vehicle Service Contracts (VSC) are like health insurance for your car.

There are many reasons why you might want to buy a vehicle service contract. Here are a few of the most common:

1

Peace of mind. Knowing that you have coverage for unexpected repairs can give you peace of mind and help you avoid financial hardship if your car breaks down.

2

Financial protection. Vehicle service contracts can help you save money on unexpected repairs by covering the cost of parts and labor.

3

Convenience. Vehicle service contracts can make it easier to get your car repaired by allowing you to take it to any qualified mechanic, rather than having to go to the dealership.

4

Flexibility. Many vehicle service contracts offer a variety of coverage options, so you can choose the one that best meets your needs.
