

Where **wellness meets employee engagement** in the **workplace**.

The Levelhead Difference:

We are a leadership & employee engagement program with proven results in as little as 8 weeks - not just another meditation app. We offer:

- ✓ **Innovative digital engagement tool with scientifically based mindfulness content; includes 170+ bite-sized exercises, averaging 3-5 minutes each.**
- ✓ **Robust measurement and research built in. Access to user engagement stats and customized surveys to measure the impact.**
- ✓ **Leadership development components to teach leaders how to integrate mindfulness activities into the workplace and develop critical skills.**
- ✓ **High-touch support and ongoing education via videos, mini-podcasts, blogs, and messaging.**

Why? It's Simply Good Business.

The science is sound: mindfulness reduces stress, enhances focus, boosts creativity, and raises productivity. People perform better when their minds are clear and that positively impacts the bottom line.
