

SUPPORT NEW MOMS ON YOUR TEAM BETTER THAN EVER

The stats don't lie; 43%* of women leave their careers within one year of having a baby. We understand how critical employee retention is.

Leva is here to help. Leva is the first app and service of its kind holistically focused on supporting new moms every step of the way.

When you provide Leva to your team, mothers will have the support and tools to succeed with the transition to motherhood and back to the workforce.

What's the Leva App?

- Leva is an easy-to-use app available on Apple & Android phones that understands the needs of new mothers.
- Leva offers personalized support for breastfeeding, pumping, bottle feeding, diaper tracking, infant growth, and milestones.
- Live, video-enabled one-on-one support from experts in lactation, sleep, fitness, career, and mental wellness.
- Parents can access over 250 high-quality, well-researched, science-backed articles by experts.
- A library of 100+ meditations supports well-being, proven to reduce anxiety and depression in this critical time.
- On-demand videos cover breastfeeding, formula feeding, fitness, balancing work and motherhood, and re-entry into the workforce.
- Founded by Vanessa Jupe after being inspired by her first-hand experience as a new mom and executive in corporate America.

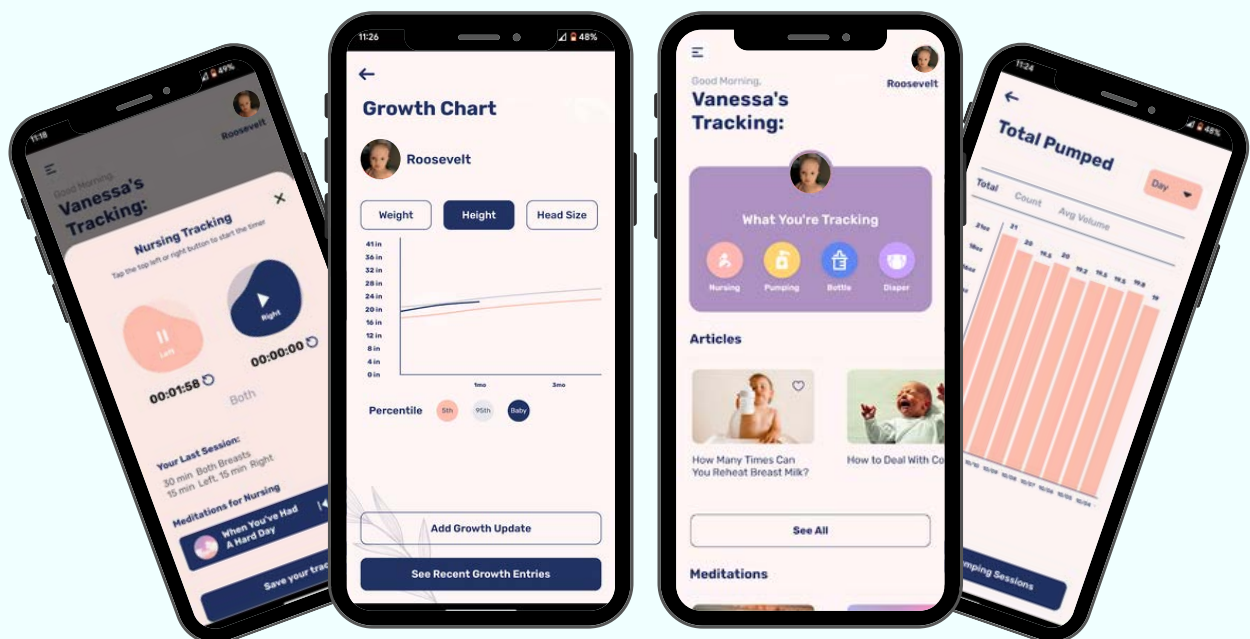

Get Started

As you evaluate your benefits packages, don't forget mom. With a minimal investment, you can make it clear to the new mothers on your team that they are valued and supported. And importantly, ensure they successfully re-enter the workforce after maternity leave.

Getting started with Leva is simple. We can get your team up and running in a few clicks. Once onboard, we will continue to support your team with custom assets and strategies to ensure a successful launch.

"I love the app! Easy to navigate and super helpful. What I love most is the meditation while nursing/pumping. That's unique and so helpful." - Lily
