

At SyncStream, our ACA File & Mail services make reporting easy. Our solution populates the forms with the data that you provide. Forms can be edited if necessary and E-Filed directly to the IRS. Forms will be printed and mailed to employees.

**When I was ready to give up, SyncStream reassured me that I can do it. They took the time to help me understand the whole process and it was my first time. They are life savers! Thank you so much.**

Sookie - Burnsville | MN

## SyncStream's ACA File & Mail Includes:

### Cloud Based Reporting

Simplifies the reporting process by consolidating the information you need and automatically populating form.

### Form 1095 and 1094 Generation

Populate employee statements and generate yearly IRS reports.

### Tax Form Repository

Tax Form repository is a one stop place where all your PDF's for the tax year live.

### Print, Fulfillment, and E-Filing to the IRS

Our solution populates the forms with the data that you provide. Forms can be edited if necessary and E-Filed directly to the IRS. Forms can be printed and mailed to employees.

### Form 1094/1095 IRS E-Filing Corrections

Easy-to-use self service platform allows for printing and mailing of 1095 forms and E-Filing of 1094/1095 forms to the IRS, with standard technical support.
