

# DRIVING HIGH ENGAGEMENT, EXCELLENT OUTCOMES AND LOWER COST

## DIABETES IS A MAJOR DRIVER OF HEALTHCARE COSTS

1 in 3 of us is at risk for diabetes.

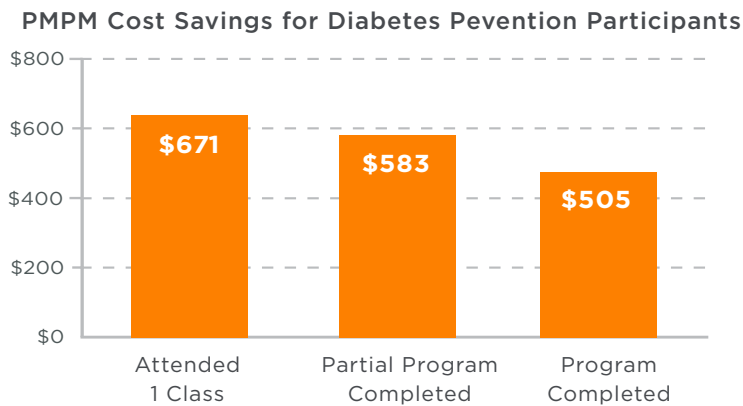

More than 86 million Americans have prediabetes, and most of us don't know it.

Without action, more than 50% with prediabetes will develop diabetes in the next 5-10 years.

## PREVENTING DIABETES IS EFFECTIVE AND SAVES MONEY

Participants who completed a diabetes prevention program with 5+% weight loss experienced a 20% decrease in PMPM.

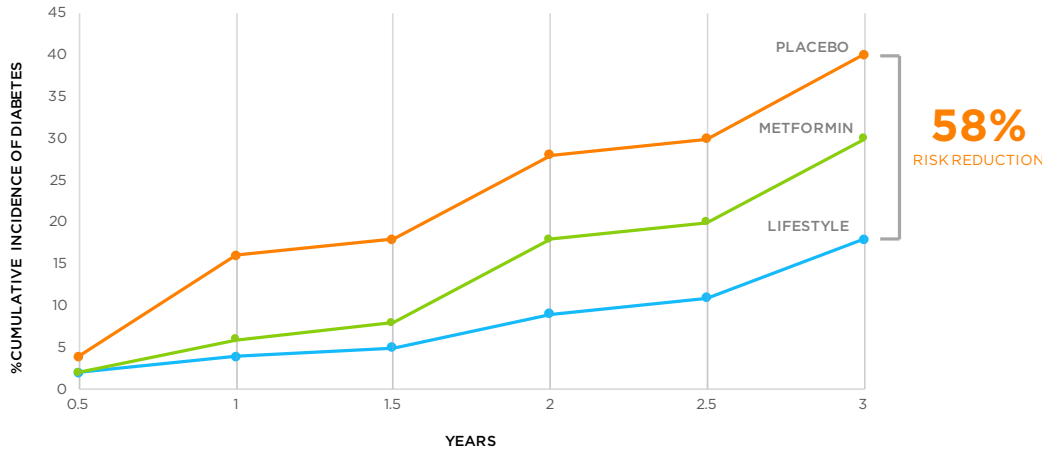

# INTRODUCING SOLERA HEALTH

We help employers offer evidence-based chronic disease prevention programs that drive outcomes and lower costs.

Developed by the CDC and the NIH, the Diabetes Prevention Program (DPP) has been proven to reduce the risk of type 2 diabetes by 58%.

The diabetes prevention program's effectiveness has been proven.

N Engl J Med. 2002; 346: 393-403

## WE MATCH EMPLOYEES TO THEIR BEST-FIT PROGRAM

With one contract, your employees can choose from among a network of diverse DPP providers.

Need to accommodate a flexible schedule? Prefer a program for men only? Want an in-person class? Based on preferences, we'll connect your employees to their "best-fit" program, giving them the best chance of success.

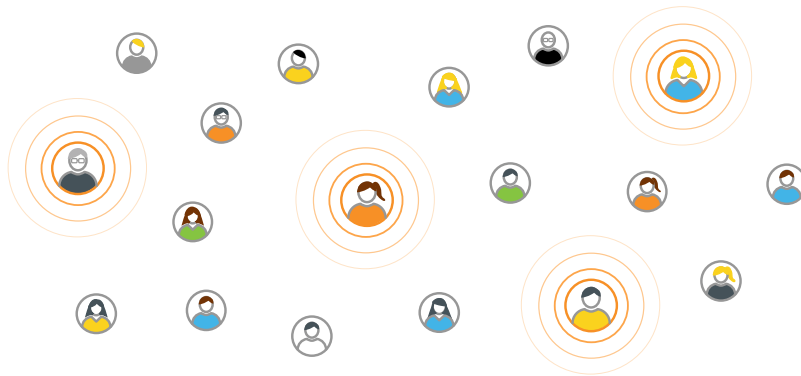

# HOW IT WORKS

At Solera, we follow a three-step approach to make sure that the right employee is matched with the right DPP provider.

## Targeted Identification

We target your high-risk employees—via biometric data or online screener—to assure the greatest return on your investment.

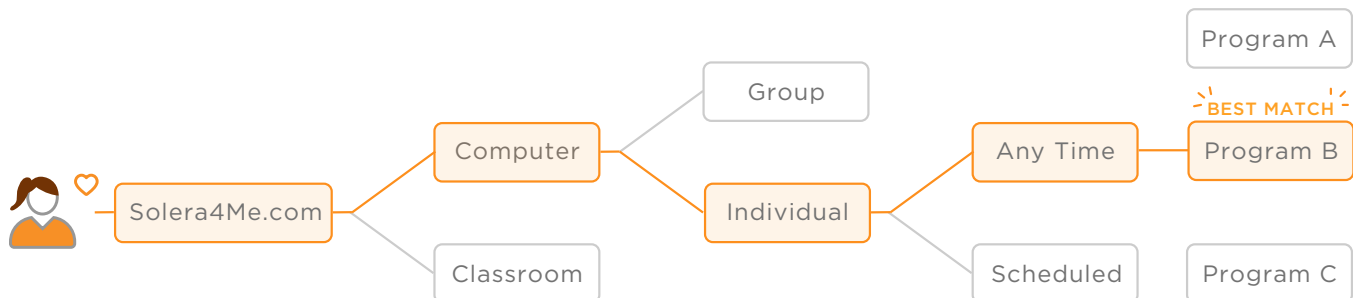

## Effective Outreach

We're experts at enrollment, continually testing and refining a customizable, multi-channel toolkit that integrates with your wellness platform.

## Preference-based Matching

Employees are directed to Solera4me.com and, using our patent-pending technology, are matched with one of our industry-leading network partners, based on their needs and preferences.

# WHY SOLERA?

## **We only get paid for outcomes**

Solera's solutions are paid through medical claims and are built on milestone- and performance-based pricing, not PEPM; you'll only pay for those who enroll, engage, and/or demonstrate outcomes.

## **We celebrate choice**

We know that "one size fits all" typically fits few. We offer employees a range of program options and believe that, when they get to choose, they'll be more invested and more successful.

## **We benchmark for quality**

Solera offers a network of program providers to guarantee both quality and stability. We continually monitor performance to ensure high standards, and provide roll-up reporting for transparency.

## **Interested in helping your employees avoid diabetes?**

We'd love to chat.
