

# BenefitBump guides employees through the family building process

BenefitBump optimizes the use, value, and satisfaction with the employee benefits that a company offers.

We provide a **concierge service** for growing families (all paths to parenthood) by helping employees navigate benefits, time-off programs, mental health resources, childcare resources, and return-from-leave logistics and supports.

We utilize a **human-to-human support** model with consistent proactive personalized outreach every step along the way by Care Navigators (licensed mental health professionals).

We have a **mobile app/website for 24/7 support** for those that like to engage digitally, with employer-customized checklist items, benefit information, and lots of articles and resources.

Website and app supplement 1-on-1 conversations

## Checklist

Personalized navigation plans.

## Benefit Information

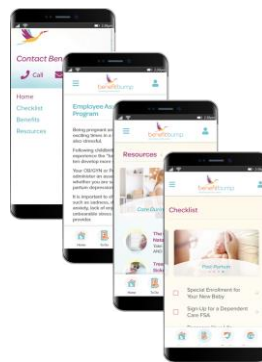

Your organization's benefits, policies, and programs.

## Resources

Tips, reminders, and tools, including meditations and digital cognitive behavioral therapy modules – all included.

## Easy Access to Live Support

Direct access to a dedicated care team.

BenefitBump results in higher return-to-work, lower employee stress, and improved employee confidence in navigating benefits.

BenefitBump guides participants through their journey from planning through return-to-work.

**Registration and Assessment** – Quick registration process

**Connections** – with a Care Navigator, a Master's level emotional health professional

**Mobile Tools** – custom built with their employer's benefits and programs

**Leave Support** – assistance with planning and the leave process

**Return-to-Work** – post-partum/adoption support focused on wellbeing and logistics

Tangible DE&I solution that saves employers time and money

## DE&I

We support all paths to parenthood including LGBTQ couples and both parents/spouses; we provide health literacy and education for all employee types.

## ROI

BenefitBump saves employers \$\$ by returning parents to work and retaining them (98% RTW rate), improving maternal health outcomes, and lowering direct costs.

## Implementation

Implementation is quick and easy – no eligibility files required!

“Overall, the BenefitBump program is AMAZING! I was blown away by the level of support, as well as the range of support the team could offer me. It was so nice to have a candid, comfortable conversation with my care navigator about benefits, mental health, etc.”
