

# Your partner in better health

Direct-to-employer primary care

 Headquarters  
Denver, CO

**Everside Health** is one of the largest value-based advanced primary care providers in the U.S., serving more than 635,000+ enrolled patients.<sup>1</sup>

Everside provides **direct-to-employer** primary care, giving 24/7 provider access to patients both virtually and through in-person health centers.

Our **value-based-care** solution drives significantly lower costs for employers and their employees, improved clinical outcomes, and very high patient satisfaction scores.

For our clients, this is a **need-to-have**, not a *nice-to-have*.

## How we lower your total cost of care

**Value-based per-member per-month flat fee membership model** making for a predictable pricing structure for our clients.

**Patient engagement** through benefit design, outreach, and advanced technology.

**Low or no copays** and fees for members including Rx, and no charges to insurance.

**Performance guarantees** that drive financial alignment with employers to drive reduction in total cost of care.

## Proven performance

**17% gross savings average** by year 3, and 31% by year 5<sup>2</sup>

Financial performance shows **significant savings across all categories of spend**, with the most pronounced areas being specialist consults, imaging, lab, and prescription spend

**92% client retention** across the Everside portfolio

**By your side  
across the U.S.**

**375+**
