teamflect

The Only Performance Management Software Built for Microsoft Teams

Teamflect provides HR leaders an easy-to-use tool which allows them to lead their organizations effectively through;

- Effective and structured 1-on-1 meetings
- Easy feedback and recognition sharing
- Performance reviews and development plans
- Independent tasks for individuals and group tasks
- Well integrated Goal & OKR module

Why Teamflect?

Easy-to-use
Teamflect provides a native Teams application experience to end-users. Your users will get started right away without extensive trainings.

Integrated
Teamflect is well integrated into Microsoft Teams & Outlook and supports single sign-on - so no need for separate username and password.

Insightful
We help HR teams to make data driven decisions with our rich analytics dashboards that are powered by Microsoft Power BI.

Customizable
No one understands your needs better than you do. You can customize our software to fit your organizations needs and still make the most out of all our features.

- Meetings
- Goals & OKRs
- Performance Reviews
- 360-Degree Feedback
- Surveys
- Tasks
- Recognitions
