

MATERNITY EMPLOYEE ASSISTANCE PROGRAM (EAP)

Improving workplace productivity by providing maternity services to employees

01

POST-BIRTH VISITS

We provide weekly maternity specific telehealth support for the first six weeks after delivery. If in tri-county South Florida we provide three in person visits.

02

TELEHEALTH FOR 1 YEAR AFTER DELIVERY

We provide telehealth services from the first trimester, up to one year after delivery.

03

CARE COORDINATION

We coordinate care for clients who may need access to additional levels of healthcare. For instance, if elevated blood pressures after pregnancy we obtain consults with a primary care provider or cardiologist.

04

IMPROVE POSTPARTUM HEALTH

Screening for mood disorders, helping with coping concerns and optimizing post-birth health.
