

WELLNESS CHALLENGES

Why Wellable?

Most employee wellness challenges force participants to adapt to a rigid platform or technology. They provide employers little opportunity to customize and configure challenges to meet the needs of their employees and often focus exclusively on physical health, rather than holistic well-being.

Wellable believes that wellness is a **one-size-fits-one** solution. No single technology is perfect for everyone. Wellable allows employees to choose the technologies that are best for them and supports employers with easy-to-use tools to build and administer challenges designed for their populations.

The result? Healthier, happier, and more engaged employees!

More Than Just Steps

Integrates with all leading apps and devices to track steps, distance, healthy locations, nutrition, and more. Includes access to a brand-agnostic, discounted device store with no minimums and free shipping.

Challenge Library

Choose from dozens of curated, research-based challenges with everything needed for a successful program, including marketing materials, proprietary content, and more. Customize turnkey challenges to meet specific needs.

Creative Rewards

Build a compelling rewards program from a diverse selection of creative options, including electronic gift cards, raffles, premium differentials, PTO, and more. All challenge themes come with recommended reward structures.

Robust Reporting

Gain insights on the value of a program and ways to improve it with on-demand dashboards and customizable reports. Supplement these findings by issuing surveys to capture what the numbers don't say.
