

Biometric Screenings

Wellness Coaches is a turnkey provider of biometric screenings. Our screenings support your organization's well-being by measuring vital health information, tracking changes over time, and providing data and insights that can be a catalyst for healthy behavioral change.

Comprehensive Screenings

Our services include a wide range of tests and screens, including cholesterol and glucose panels; measured weight, waist circumference, BMI, body fat, and blood pressure; A1c; cotinine; COVID-19 testing; and more. We offer both venipuncture blood collection which can be processed by our partner labs or fingerstick tests which are processed onsite through our CLIA-waived laboratory. All participants receive a personal 1-on-1 consultation to review their results and discuss actions they can take to improve their health.

Vital Health Information & Insights

Our events help individuals assess and improve their health, identify health risks so that actionable mitigation efforts can be taken, and provide your organization with crucial data on the health of your population to better inform your wellness program initiatives.

Highest Quality Care

We are your trusted partner known for being responsive, flexible and experienced. Our nationwide network of credentialed staff is deployed under the guidance of our Chief Medical Officer, Chief Clinical Officer, Laboratory Director, and Director of Regulatory Affairs for uncompromised quality, training, and compliance.

Why Choose Wellness Coaches?

Many employers choose Wellness Coaches because we are different.

We provide a turnkey service which includes our nationwide staff of credentialed professionals that we train in-house to deliver high quality care and an uncompromising participant experience. Our technology platform, Healthy Ways®, is a wholly owned and developed next generation digital platform that was designed from the ground up to administer HIPAA-compliant biometric screening programs including registration, scheduling, results access, personalized education and communication materials, and real-time analytics and reporting. We have an award-winning in-house communications team that will help you design communication and promotional materials that deliver high participation rates. Of course, we supply all tests, equipment, and ancillary supplies, too.

We design and implement solutions that meet the needs of you and your organization, including onsite, point-of-care events run by our trained and credentialed in-house staff. We understand that workplace dynamics are changing so we also offer home test kits, manage a laboratory and clinical voucher program, and support screenings performed by employees' physicians.

Our programs are designed with clinical rigor, delivered with a personalized touch for a superior participant experience, and implemented through our Health Ways® platform, a proprietary, HIPAA-compliant, best in class digital health system. This results in events that can be tailored to the unique needs of each client and their participants, delivering rapid, accurate, and actionable health information to individuals that enable wellness programs the ability to deliver high engagement and superior health outcomes.

Schedule Your Event

STEP ONE

Contact us by clicking [here](#).

STEP TWO

We will identify logistics details and next steps and provide all promotional materials.

STEP THREE

Spread the word to your population. Participants will then schedule appointments and complete required questionnaires or consent forms prior to the event.
