

Why NWPS?

Experience, Excellence and Effective

Employers want a retirement plan provider who gets their needs, takes care of the details and offers proactive support. At NWPS, our clients and their plan’s advisors are the decision makers. We handle plan operations, participant service and compliance.

Experience*

\$47.7 billion
in retirement savings
under administration

1,100+
clients nationwide

550,000+
participants

Founded in
1994

Excellence

Full scope of services

End-to-end services thoughtfully tailored to your plan in partnership with your plan’s advisor

Open architecture

17,000+ available funds and CITs. No proprietary funds

Transparent pricing

Straightforward and conflict-free pricing independent of fund lineup

Effective *Employers*

It’s about you, not us

We don’t offer insurance or investment products and we won’t sell services to your participants – or harvest their data

Fees based on plan complexity

We base fees on complexity and number of participants, not assets – we won’t charge you more because your plan is successful

Single point of contact

You’ll work with one consultant as a single point of contact who is backed up by an experienced, knowledgeable team

Employees

Secure, robust website

Your employees can safely access their accounts – and learn about financial wellness – 24/7

U.S. based call center

We guarantee 90% first-call resolution (though we resolve nearly all of them the first time we’re called)

Retirement readiness

We offer a customized, interactive retirement readiness tool that lets employees know where they stand compared to their retirement savings goal

* As of Oct. 31, 2023.
