

# CARETEAM AT A GLANCE

**CareTeam**  
Live Well. Work Well.

# THE PROBLEM

Over the last decade, Americans have seen their deductibles and premiums sky-rocket, felt the frustration of long wait times to see their primary care doctor, and delayed treatment due to inconvenience. The result is a health system designed for “sick-care” rather than prevention, and a surge in chronic conditions that is crippling our workforce and economy.

Cost follows risk and without proper healthcare intervention and coordination, the cost to an organization’s productivity, morale, culture, and bottom-line will be significant. Managing healthcare should be a top priority in any organization’s business strategy, and employers cannot afford to continue waiting on the existing healthcare model to improve.

**+25%**

chronic disease  
rising among  
working adults.

face to face time  
with a community  
provider.

**44%**

Americans who put off  
going to the doctor  
because of cost.

# THE SOLUTION

CareTeam believes that employers hold the key to truly changing the way that health care is delivered, and we are creating healthier workforces and healthier bank accounts for our clients. Historically, employer-driven healthcare has been reserved for larger organizations that employ thousands. CareTeam doesn't think that's fair and we are changing the rules of the game with proven, fixed cost solutions to fit the needs of companies of all shapes and sizes.

## EMPLOYER-SPONSORED DIRECT PRIMARY CARE

**employ-er/ spon-sor-ed/ di-rect/ pri-mary/'ker**

**1. Noun: Comprehensive primary care services delivered directly at an organization's worksite or at a shared-employer health center, providing employees with unprecedented access to high-quality, low-cost healthcare .**

John Hopkins University reports an average return of \$2.61 for every \$1 invested in worksite primary care.

## BENEFITS OF EMPLOYER-DRIVEN HEALTH SOLUTIONS:

- Improve health
- Increase productivity
- Control costs
- Boost morale
- Elevate culture
- Strengthen recruitment and retention efforts

# WHO WE ARE

We are a “team” of entrepreneurs and clinicians with experience in successfully transforming healthcare services. We apply our broad range of expertise and perspectives with an emphasis on creativity and innovation to solve real problems and achieve measurable outcomes for our clients.

## CARETEAM DIFFERENCE

Behavioral health  
integration

Coaching that  
drives healthy  
behavior

Communication  
and engagement  
programming

Personalized,  
clinical intervention  
shaped by data

Best-in class  
technology  
package

# WHAT WE DO

CareTeam partners with organizations of all sizes to deliver employer-sponsored direct primary care solutions designed to change the health risk and cost curve of an organization. CareTeam is first and foremost results driven, and we use biometric screenings and data to drive tailored care for your employees.

Our elite technology platform provides seamless integration and unsurpassed user-experience, significantly enhancing care management and achieving positive health outcomes.

Our clinicians are certified health coaches who apply leading edge tools and information on nutrition, exercise, and lifestyle management to drive behavior change and, more importantly, sustainable health outcomes.

The Cleveland Clinic found that worksite disease management programs resulted in:

- \* 20% reduction in ED visits
- \* 20% reduction in hospitalizations
- \* 28% reduction in sick days
- \* 98% flu shot compliance

## CARETEAM'S GAME CHANGING SERVICES:

- Behavioral health solutions
- Virtual care
- Wellness and health coaching
- Onsite and shared-site health centers
- Comprehensive primary care services
- Lab and pharmacy services
- Biometric screenings
- Disease management programs
