

## After 12 months in the Virta Clinic, Kim has seen great results

A1c reduced from 8.6 to 5.5 (below diabetic level)

Off all diabetic and blood pressure medications

Lost 60 pounds and has improved energy and stamina

Virta's peer reviewed clinical trial results prove that a continuous remote care model, enabled by technology and combined with the right treatment protocol, can change chronic disease care from management to reversal.

## Diabetes reversal, not management.

Virta Health is the leading clinically-proven treatment to reverse type 2 diabetes without the use of medications or surgery.

## Virta is leading the new wave of diabetes care: reversal instead of management.

The Virta Treatment can reverse type 2 diabetes to sub-diabetic levels—freeing patients from insulin and other costly medications. Virta also saves employers on healthcare spend.

Virta economic modeling estimates an average savings of almost \$10,000 per patient over the course of two years.

## **Virta Health Impact Analysis**

Virta results extend beyond diabetes reversal, with sustained improvements in blood pressure, inflammation, cardiovascular markers, insulin resistance and weight loss.
