

Your guide to stress-free leave management

A scalable software solution designed for third-party administrators to enhance their leave outsourcing services.

Ensure compliance

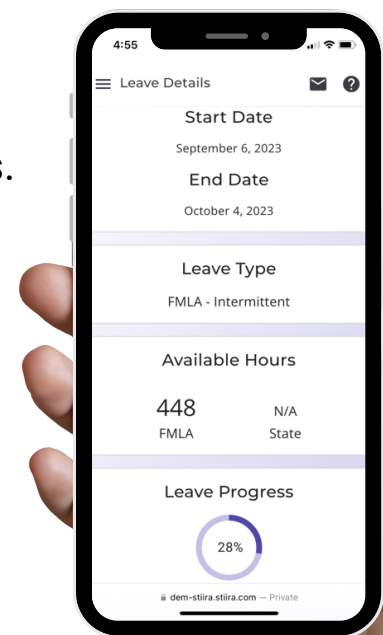

Confidently administer leaves with logic and automation to ensure alignment with leave regulations.

Scale your service

Onboard new clients with ease and manage roles, policies, and system settings at a company level.

Support your clients

Full self-service for employees and client access to employee leave data, status updates, and reporting.

Why Stiira?

Flexible Configuration

Our application architecture allows administrators to adapt the platform for current or future leave laws and company policies, while leveraging built-in compliance for federal and state leave regulations.

Integration-Friendly

Stiira seamlessly integrates with your HCM system to ensure streamlined data flow to automate HR processes, eliminating manual data entry and improving overall efficiency.

Customer-First Approach

We prioritize our customers' needs with transparent and competitive pricing, guaranteed support response times, a short implementation period, and an intuitive user experience.
