

Your partner in better health

Headquarters
Denver, CO

Everside Health is one of the largest value-based, advanced primary care providers in the U.S., with more than 1.6M¹ eligible members.

 Everside provides **direct-to-employer** primary care, giving 24/7 provider access to patients both virtually and through in-person health centers.

 Our **value-based-care** solution drives significantly lower costs for employers and their employees, improved clinical outcomes, and very high patient satisfaction scores.

 For our clients, this is a **need-to-have**, not a *nice-to-have*.

How we lower your total cost of care

Value-based per-member per-month flat fee membership model making for a predictable pricing structure for our clients.

Patient engagement through benefit design, outreach, and advanced technology.

Low or no copays and fees for members including Rx, and no charges to insurance.

Performance guarantees that drive financial alignment with employers to drive reduction in total cost of care.

Proven performance

17% gross savings average by year 3, and 31% by year 5²

Financial performance shows **significant savings across all categories of spend**, with the most pronounced areas being specialist consults, imaging, lab, and prescription spend

94% client retention across the Everside portfolio
