Our Care Providers

At MyWoosah, we take great pride in handpicking highly qualified care providers dedicated to working closely with families, ensuring that all their care needs are met with utmost professionalism and compassion.

Independent Contractors

Care Providers are employed by MyWoosah as independent contractors and covered by an umbrella liability and professional insurance.

03 Interviewing

Care Providers undergo a prescreening process where they are interviewed before being matched with families. Families then interview and conduct working trials with care providers to ensure they are a good fit for their needs.

Background Checks

Our care providers are screened and background checked twice yearly by our in-house recruitment team at no cost to the family or employers.

04 Matching

Unlike our competitors, we leverage technology to custom-match families with care providers that meet their care requirements. This saves valuable time and energy they would have spent sourcing through an open marketplace.
