Introducing Retain

Revolutionize your accommodations process.

Where employee empowerment meets business efficiency. Discover the future of managing accommodation requests, tailored to each unique individual.

$200k
savings for every 50 employees that self–ID

>60%
of current process is automated

~$150k
saved per year on overhead related to current accommodation process

With Retain, there's no more juggling myriad requests or wrestling with complexities.

Dive into a solution that effortlessly streamlines your employees' workplace needs and ensures everyone across your workforce feels equipped and valued

Navigating accommodation requests can be a maze.

Companies often grapple with an influx of personalized needs, trying to ensure everyone gets the right support. It's time for a smarter approach that incorporates feedback from employees and clearly distinguishes between the medical and social models around accommodations.

Our answer to your company challenges around accommodations.

Whether you're rolling Retain out for a department or the whole organization, our seamless integration with your case management process means ease of adoption from day one. We're committed to Comprehensive Inclusion, Empowerment, and Innovation.

Benefits

Boost productivity, increase employee retention, and elevate ROI.

With Retain, managing accommodation requests is not only efficient but also a strategic move towards a more inclusive future.

Designed with the future in mind, Retain not only addresses today's accommodation needs but also resonates with Gen Z's expectations for a personalized and inclusive workplace.

Key Features

Generative AI at Your Fingertips

Imagine an AI chatbot that can swiftly suggest accommodations for specific needs. Say "What accommodations are good for anxiety" and get instant, data-driven recommendations.

Flexibility in Rollout

Choose how you introduce Retain. Pilot it with specific teams or embrace company-wide change. We're flexible, just like our pricing.

Embedded Learning

Both employees and administrators can lean into Inclusively's data. The platform brings transparency like never before.

Easily Complements Your Current Workflow

Crafted to align with your existing systems and applications
