Plans

Expect better, more effective results from your medication.

Meet with a Kroger Pharmacist to ensure you are getting optimal benefits from your retail medications.

Comprehensive Medication Review

Medication Therapy Management optimizes your overall health by decreasing adverse drug reactions, addressing gaps in care, reducing medication waste and increasing medication adherence. This review will identify therapy duplications, drug interactions and other medication-related issues – at no cost to you.

Getting Started is Easy

Visit your local Kroger retail pharmacy to set up an appointment and review your eligibility. All Kroger Pharmacists receive specialized clinical training to support the Medication Therapy Management program.

Benefits To You

Save on drug costs with alternatives, such as generics.

Receive a clinical review of over-the-counter medications, including herbals and supplements, to ensure they do not interfere with your treatment.

Get recommended alternative therapies through collaboration with your doctor.

Reduce intolerable side effects with care planning.

Education helps you manage your condition.

Consultation takes place at a Kroger in-store pharmacy.
