

Benefitfirst is a cloud-based benefits eligibility management product that automates and supports an employer's complete benefits cycle with an unmatched focus on accuracy. Customized to each client and each employee, Benefitfirst is business rules driven and includes routine exports to carriers/TPAs and standard weekly audits – ensuring an eligibility error rate of less than 1 percent.

Benefits Administration Solution

Streamlining benefits administration and ensuring accuracy, Benefitfirst delivers precise deductions, bills, and claims processing, transforming your experience from a nightmare into a breeze.

Carrier Integrations

Since 1998, Benefitfirst continues to ensure accurate, audited eligibility data. We support a variety of formats, while also maintaining audit trails of all activity.

Payroll/HRIS Integrations

Benefitfirst provides flexibility to work with any vendor. Our closed-loop payroll process eliminates manual processing between systems. Coupled with our proprietary validation process, Benefitfirst ensures deductions match the monthly bills eliminating billing discrepancies.

Compliance Solutions

Compliance is dependent upon accurate data. Benefitfirst's audited eligibility data streamlines employers' compliance reporting - COBRA, Benefit Reporting and ACA Compliance.
