# League does more with less effort from you.

It can be overwhelming choosing the best digital health and benefits navigation platform for your clients. Employers not only want a solution that is cost effective, but one that can drive a meaningful increase in employee healthcare engagement. League accomplishes this by combining care navigation, employee wellbeing and a best-in-class employee experience all in one, easy-to-use platform. Our health operating system (health OS) is fueled by data insights that facilitate a deeply personalized experience when finding, navigating and paying for care. See how League stacks up to the competition.
