## Mitigate ACA & EEOC risk through technology and expertise

### SyncStream Solutions Compliance Solutions

SyncStream Solutions, based upon their impeccable compliance and full customer service offerings is a value to Employers, Payroll Vendors, Benefit Systems, Advisors, TPAs, PEOs, etc.

SyncStream Solutions leads in developing innovative compliance solutions covering: ACA, EEOC and unemployment claims processing. This is not a one-size-fits all solution, handling complex and custom situations, easily integrating data, user friendly, and provides full-service support with robust compliance logic that takes away the risk of noncompliance.

### Solutions

Why add more stress when you can put your compliance on autopilot: Let us do the work!

- **ACA Dashboard:** manages all aspects of ACA tracking, reporting, and compliance, even in the most complex employment cases
- **ACA Reporting Essentials:** collects information about employer plans and coverage to populate IRS reports.
- **ACA E-File Complete:** helps companies file reports on time and stay compliant.
- **ACA Audit:** ensures compliance and avoids non-compliance penalties.
- **ACA State Filings:** ensures compliance with all State and local reporting requirements
- **EEOC Reporting:** EEO-1 Comply software helps businesses collect data and generate necessary reports for compliance
- **Unemployment Solution:** A comprehensive unemployment claims and reporting SaaS and enterprise software solution.

### Affordable Care Act Tracking & IRS Reporting Made Simple

There is a costly compliance risk with not reporting or not reporting accurately. The process is complicated; but with SyncStream’s comprehensive ACA Dashboard, employers can easily track, report, and manage compliance.

Neither in-house solutions nor benefit administration systems can fully address the evolving ACA complexity.

The SyncStream ACA Dashboard is endorsed by and sold to applicable employers, trusted advisors, agents, brokers, accountants, HR professionals, CPAs, financial planners & attorneys.
