

THE PROBLEM

Current Solutions are Falling Short

Only 25% of the average workforce meet the need for clinical care.

Shouldn't the other 75% be supported in their mental health? Spirence supports everyone at every point. Our virtual educational and prevention platform builds the mental health literacy of your workforce and their loved ones.

THE SOLUTION

Mental Health Literacy

Having language and knowledge of mental health aids in one's ability to recognize, manage, and potentially prevent clinical intervention.

OUR OFFERINGS

Foundational

- Virtual Library
- Webinars
- Family Support

Ancillary

- Coaching & Seminars
- Wellness Retreats
- Critical Incident Stress Debriefing

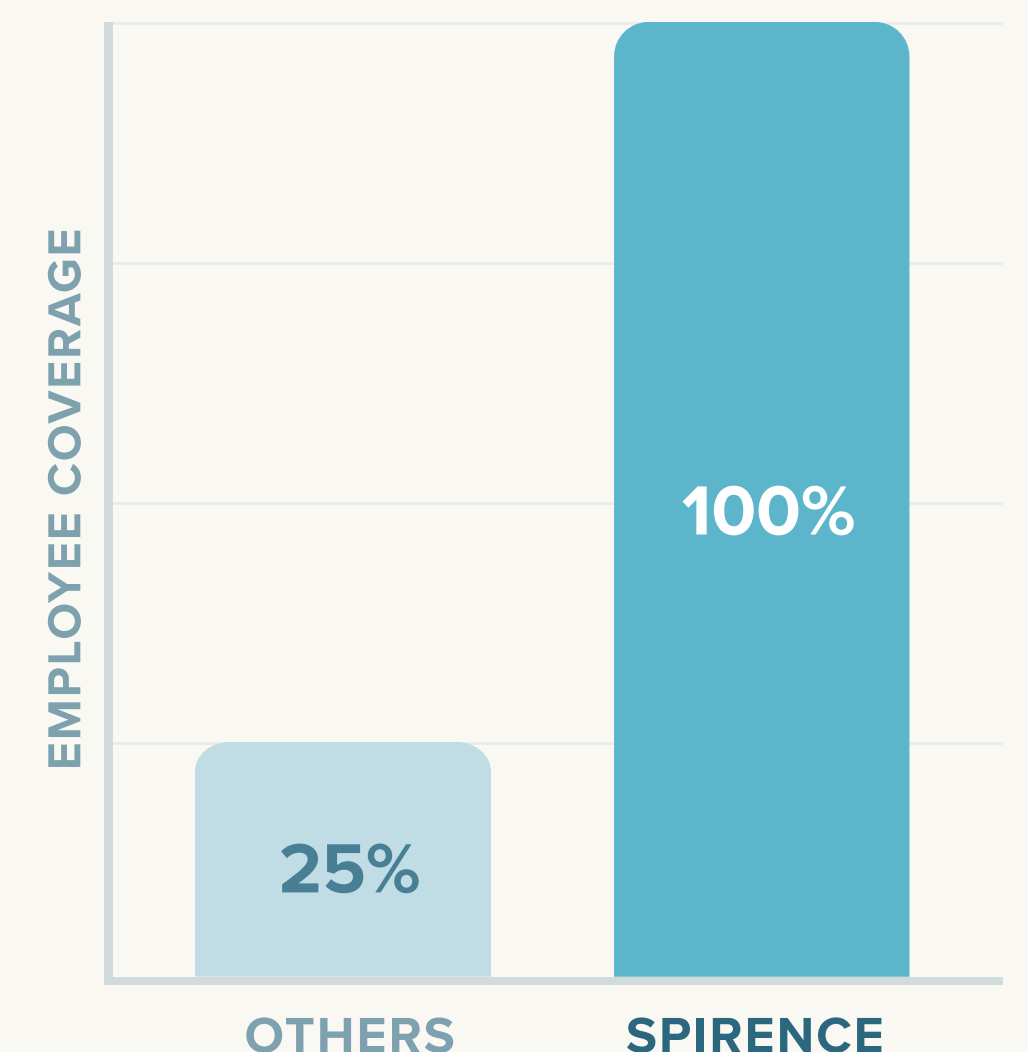

WHY SPIRENCE

The Spirence Story

From years of owning and operating Futures Recovery Healthcare

Through first-hand experience, we found the need to:

- Reduce the stigma around addiction and mental health in the workplace
- Encourage companies to invest in their employee base and their families for proper prevention of mental health conditions
- Easy and affordable access to proactive and preventative mental health education
